#### **DETAILED ACTION**

Claims 29-48 are currently presented and have been examined.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 29-48 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 29-48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 29-48 recite "...an operational failure of the detector device, the operational failure comprising a non-functioning operation." It is unclear as to what method or means specifically within the detector device operatively fails to function.
